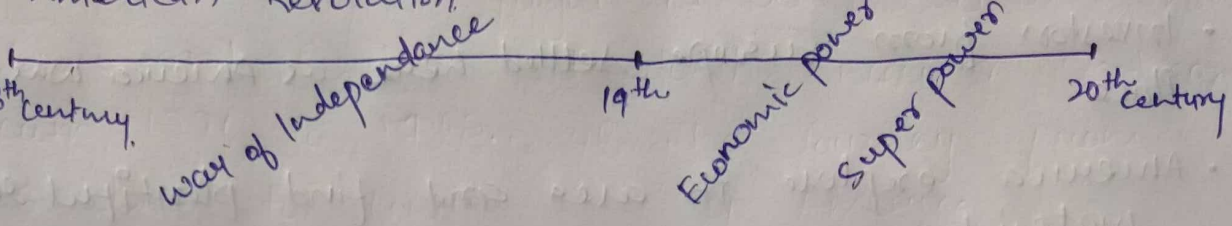
Ques Explain How USA become Superpower in 20th Century.

Ans: The journey of USA becoming Superpower started from American Revolution



It can be studied into as :-

- Causes
- Industrial Revolution
- Economy development

1.) Causes to become Superpower

- Economic Causes - England policy, Navigation Act, Trade monopoly, Restriction on the same product manufacturing., sugar and Mollases Act. All these resulted into Conflicts and agression in the Colonial people.

- Political Causes - The highly imposed tax evoke Americans to fight with the England.

- Stamp Act, Buston tea party, Buston massacre make americans anger to revolt against Britain

- Social Causes - American were more liberal & progressive which result in their Independance

Also some Individual become enlightened the people

- Thomas Paine
- Benjamin Franklin
- Henry patrick. given the slogan "Give me Liberty or give me death"

America got Independence after the war (1776 to 1783) and adopted Industrial revolution which turn America to Economic power

Role of Industrial :-

- America developed the Infrastructure and Technological development.
- Investors from Europe settled here as America was safe Place
- America explore its area and find plentiful raw material.

Market :-

Europe and Britain become the market for the USA to supply its finished goods

- Napolean Continental policy - helped the USA alot.
- Stock Exchange, Neworkstock exchange - furthers boost the economy of America.
- America now had a strong politics, Economy and a strong social & society. The wealth was accumulated in USA and become rich. Thus all these factors helped the U.S.A to become Superpower in 20th century.

Conclusion USA also helping the other Countries toward the modernisation by laying down various policies and Programme with all Countries. eg Sustainable development Programme.
